Subject: Application AW/298/20/T

Dear Nicola,

I understand from an email I received from your department on Oct 29th that you are dealing with my planning application ref: AW/298/20/T.

The email asked for some additional information but I wasn't sure how to submit it so I hope an email direct to you is acceptable.

I tried to do it online but couldn't access the application any longer.

The additional information asked for was '**The proposed height & spread in metres**'. I can confirm the proposed height of the trees will be 13 metres with a spread of approx. 11 metres.

I hope this is in order but please do let me know if you require anything else.

Kind regards, stay safe.

Paul Davidson
