Hi Mr Maynard

Sorry for not replying sooner

I believe the best reason for having the tree reduced in height would be to say

To encourage more growth lower down in the canopy to help protect some large shrubs that you would like to keep but at the moment they are being hit hard by the winds

I hope this is appropriate reason for requesting the work to be carried out

Kind regards

Ian

Subject: Planning

Hi Ian,

I wondered if you could send through your thoughts on the sycamore so that I can get the planning application lodged.

Thanks,

Colin
