

Attached Sheet no. 1

Application for Tree Work, by Kenneth Keep, 45 The Drive, Bognor Regis PO21 4DS.

ITEM 7 – Identification of Trees and Description of Works

Row of 7 Leylandii (T1) arranged as a hedge 2.70m high. Re-shape by removing new growth and reduce height by 100mm. Reason – to slightly reduce intrusion, continue tidy box-shape appearance at front of house.

Row of 4 small cigar-shaped trees (T2, T4 & T5 Golden Crest; T3 Leylandi) all 2.75m high. Re-shape by removing up to 100mm of new growth all round. Reason – to prevent crowding of small trees and maintain uniform appearance.

Specimen domed-shaped yew tree (T6) 5m high. Only tree subject to Craigweil General pre-1958 TPO. Re-shape by cutting back new growth of up to 100mm all round dome shape and raise crown (skirt) to 300mm from ground. Reason – to maintain historical dome shape to fine specimen tree, originally part of “Yew Tree Walk”.

Fagus Dawyck Gold (Beech T7) and Ginkgo Biloba (T8) both 7.00m high, reduce height of each by 60cm, and new growth by up to same. Reason – to reduce intrusion into neighbour’s garden and good husbandry. Rowan (T9) also 7.00m high, cut back height and new growth by up to 60cm. Reason – to avoid intrusion onto highway and for good husbandry.
