55 CHRISTCHURCH CR.

ALDWICK.

BOGNOR REGIS.

JANUARY 2021.

PROPOSAL TO TOP CORSICAN PINES COVERED BY TPO.

AFTER RECENT STORMS FROM WHICH I ATTENDED
A NUMBER OF DAMAGED TREES THROUGHOUT ALDWICK.

THE OWNER OF THIS PROPERTY IS WORRIED ABOUT
THE HEIGHT & DENSITY OF THE MAIN TOPS OF
A LINE OF CORSICAN PINES IN HER BACK GARDEN
THEY HAVE SHED SUBSTANTIAL LIMBS BEFORE IN
HIGH WINDS

THE PROPOSAL TO REDUCE THE HEIGHT BY 1.5m
& THIN OUT THE TOPS WOULD GREATLY REDUCE THE
SAIL FACTOR OF THE CROWNS WITHOUT DIMINISHING
AESTHETICS.

ALSO TO REMOVE 1 LOWER LIMB LIFTING THE CROWN
TO 3m. THIS IS A HEAVY LIMB BUT AGAIN NOT
NOT DIMINISH OVERALL AESTHETICS OF THE TREES.

Yours Sincerely

LANDGIRLS
