Subject: 39 Kingsway, Aldwick - Judas tree - RPA

Hi Janice,

As discussed on the phone,

- Visited the outline Judas tree today the 14/01/2015.
- Multi-stemmed specimen, I Measured the 3 stems at 1.5 meters height.
- Using the helliwell method I found that the RPA of this tree would be 14m², which equates to a circle with a radius of 2.1 meters. The allowed offset (of 20%) would be 0.4 meters.

Kind regards

Dafydd
