Dear Nicola,

Thank you for your email requesting more information on the Eucalyptus Tree.

Our estate gardeners say it was probably not here in 1958 as it is a very fast growing tree. They say that it would be very difficult to determine the actual age of the tree.

The branches are now growing over our neighbours property giving rise to concerns of damage in the high winds we seem to be experiencing.

If you wish I would be happy to meet with you at our property for you to assess the growth.

Otherwise we can say it was not here in 1958 to the best of our knowledge.

Hope this answers your question

Regards

Philip Whitehead
