Hi guys sorry could I have the fax number I have a TPO application to fell a tree with a TPO in my garden.

The form to fill out is protected and you cannot enable editing so I have printed and filled it out by hand and I would like to fax it to you.

Could you also provide an address I could send the application too in case I cant access a fax machine (my sister has one but it might be broken)

Attached to this email are the pictures of the tree in question. Once the application is submitted if you could attach these to the application for your references.

Kind rgs, Jon Delieu
