Dear Mr & Mrs Prior,

Thank you for your interest in Andrew Needham home improvements supplying and installing one of our superior quality conservatories to your home.

To supply and lay base works as per quotation over.

To supply and install a purpose-built conservatory to your specifications and needs.

All the frames are of a 70mm lead-free Consort Is Veka profile with the highest attainable B.S.I specification of class A, fully welded and reinforced with galvanised steel for strength.

Internally glazed frames for added security.

All Consort casement windows are secured by design. (Police preferred initiative) and tested to twice the strength required BS 7950 security standards.

All the opening doors and windows have a unique 10 year manufacturer's guarantee on marine grade multi-lock systems for added peace of mind.

The glazing is of 4-20-4 sealed double-glazed units toughened where applicable giving a 20mm air gap for noise reduction and heat insulation.

The roof system is aluminium encased in P.V.C for strength, durability and is BBA certified to 05/4267 specification.

Tie bars and connectors are included where required.

The roof will be flashed to your property with code 4 lead flashing and oiled with patination oil for improved durability.

All the frames are sealed internally and externally with low modulus silicone sealant.

We hope you are submitting our quotation overleaf.
