Hello Mike,

Adam dropped by on Saturday last and viewed the tree from Dark Lane. To include the reduction with the other works would cost an extra £80.00, making a total of £500.00, for the whole job.

Regards,

Stuart.

Good Morning Stuart,

Yes that is fine. I agree that it was only the overhang that was quoted for on the Holm Oak and that is why I pointed it out. Please let me know when you want to call.

Kind regards,

Mike.

Hello Mike,

I have spoken to Adam and he has no recollection of the oak at the front being mentioned when works were discussed. Perhaps we should pop along to have a look at the extent of works to reduce to the old cuts.

No intention to prune the whole crown of the holm oak -- just the overhang next door.

Regards,

Stuart.

Dear Stuart,

Many thanks for the details and I will now submit the planning application and let you know as soon as it is approved.

The specification you sent does not include the Oak in the front garden which Adam included in the quote can I assume this is just an oversight and the same description of pruning to old cuts should apply. The Holm Oak overhanging my neighbours property being removal of the overhanging limb rather than a full prune was my understanding. Can you please confirm sorry to cause problems.

Kind Regards,
Mike.
