Dear Mr.Simon Davies,

Following my recent telephone conversation with you on Wednesday 4th April, I came to you to discuss what would be acceptable in Princess Avenue, and after the plans had been drawn it was approved by you. So I'm left confused as I do not understand why all of a sudden the plans are not fitting for the area. If this is the case, then what was the point in me taking your advice? I have now wasted my precious time and money, only to find out that the Parish Council had objected, and my claim disapproved.

I find it rather disconcerting that the Parish Council have objected, considering there are ten houses in the same road, as well as ten more that have been converted into flats. Some of which are where the house has been demolished, and a block of flats have now been built in their place. The houses that have been converted are mostly down the end of the road where my house is, surrounded by other conversions.

When I came into the planning meeting in March, I heard the councillors say things such as; 'they are

voting against the conversions because when people come to the beach they wont have anywhere to park', including other similar comments. There will be six parking spaces for my five apartments, ADC has allowed two houses over the road to be joined and turned into ten flats, with two parking spaces. Comments like the previous, only adds to my feelings of exasperation.

Also, one of the flats in my plans is only one square meter short of the required space standard, and I am sure there must be some leeway on this. I have since viewed some house on Bersted Park's new housing development and they also seem small, convincing me that they also do not meet space standard sizes?

I am very upset as you can tell, and I would like this letter to be read by your supervisor before the meeting on Wednesday.

Regards,

Beverley Woodland
