Subject: PLANNING APPLICATION: TREE WORK PO21 3DX

Dear Sir / Madam,

Please find attached my current application for tree works at 54 Pinehurst Park, Aldwick, Bognor Regis.

I have to say this whole process is very tedious and a waste of everybody's time and energy.

Having already applied to have this work done once already in 2020, here I am again applying to have exactly the same work done.

If the process for pruning trees is completely geared up to what your tree officer will allow, then why make the public take all the time and trouble of submitting your forms, only for the tree officer to say no, and you have to start the whole process all over again.

Would it not make more sense if this is how you work, that the form is amended so that you apply for permission to prune, and the tree officer then comes out and tells you what he or she will allow, and only that is what you are given permission for.

A complete waste of my time, your officers time, and the Councillors time at Aldwick Parish and Arun District Council.

Please pass this on to your Chief Planning Officer to comment. Do not reply by e-mail. Please write on letterheaded paper.
