Hi Simon

The letter from Southern Water partly satisfies item 6 of my email dated 21st Nov 2017, although Southern Water state that there is sufficient capacity at the existing manhole ref; 2253, however, the developer is proposing to connect just upstream of this point (probably a minor technicality in this case). Once they forward Southern Water's approval for the 'method and construction', hopefully, this will fully satisfy item 6.

They still need to address all the other points in my email.

Regards

Paul Cann

Dear Simon

Please see the attached form Southern Water which I believe satisfies the concerns raised.

Please let me know if you have any queries.

(We hope to have the outstanding tree information to you tomorrow.)
