Please ask for:

Mr S Davis

12 April 2018

Dear Sherlock Boswell Architecture

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015
Application for approval of details reserved by conditions imposed on planning ref AW/138/17/PL
relating to conditions no 5 (site meeting), 6, 7, 8 (drainage), 9 (Contamination), 10 (Reptile mitigation
details) 12 (materials & finishes) 13 (Landscaping) & 22 (External lighting)

90 Rose Green Road ALDWICK,,

Notification regarding the above application:

Condition Number 9

Prior to the commencement of development approved by this planning permission (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), the following components of a scheme to deal with the risks associated with contamination of the site shall each be submitted to and approved, in writing, by the local planning authority:

- 1. A preliminary risk assessment which has identified:
 - all previous uses
 - potential contaminants associated with those uses
 - a conceptual model of the site indicating sources, pathways and receptors
 - potentially unacceptable risks arising from contamination at the site.*
- 2. A site investigation scheme, based on (1) to provide information for a detailed assessment of the risk to all receptors that may be affected, including those off site.*
- 3. The site investigation results and the detailed risk assessment (2) and, based on these, an options appraisal and remediation strategy giving full details of the remediation measures required and how they are to be undertaken.*
- 4. A verification plan providing details of the data that will be collected in order to demonstrate that the works set out in (3) are complete and identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action.*

Any changes to these components require the express consent of the local planning authority. The scheme shall be implemented as approved.

docdeci

Where demolition is required 1. and 2. above should be submitted prior to demolition. Parts 3. and 4. can take place post demolition if necessary.

Reason: To ensure that the development complies with approved details in the interests of protection of the environment and prevention of harm to human health in accordance with Arun District Local Plan policy GEN7. This is required to be a pre-commencement condition because these details have to be agreed and in place before any work commences.

Decision:

Arun District Council have decided to **APPROVE details reserved by this condition**

Environmental Health Officers have considered the submitted information (namely the Contaminated Land Remediation Strategy by Opus dated 10/05/17). They state that the Strategy details the need to remediate surface soils over the entire site due to the lead and chrysotile contamination, that the proposed methods are acceptable such that condition 9 can be passed. They anticipate receiving a verification report to pass condition 15.

Therefore, the condition is discharged in full.

Please do not hesitate to contact the above officer if you require any further assistance.

Yours sincerely

A handwritten signature in black ink, appearing to be 'NC' followed by a flourish and a period.

Neil Crowther
