Re: Plans for "Russell Hotel"
Planning APP. No. A.W 336-13

Dear Sir,

After reading the plans that have been submitted for the "Russell Hotel" in the Bognor Guardian on the 8/1/2014 - I think it is ludicrous for 15 rooms on the first floor to be used and the rest of the Hotel put in Mottbales.

The Hotel was purpose built for Blind and poor sighted people, and all these people are hurt and feel let down hearing what is proposed. THEY NEED THIS HOTEL.

Many local people with a disability us the swimming pool etc. I have used the pool for 2 days every week for 6 years. After having Hydrotherapy at Bognor Hospital - I was advised by them

to use the "Russell Hotel" pool as it has easy access in and out of the pool. Other local pools in the area have ladders into the pool, which is a No-No when you have a disability. We can carry on doing our exercises in the "Russell's" pool after our Hydro has finished. This alone must save the local government money - as we all keep ourselves fitter than if we didn't use the pool. I would soon become immobile without my swimming as it keeps me going.

We are advised that as we get older we must keep ourselves active -- How can we when the only pool we can use is to be closed.

I feel that the change of use of the "Russell Hotel" should

NOT GO AHEAD

Your Sincerely,

(MRS VALERIE WESTBROOK.)
