Dear Sir

I am writing to say I am completely against the closure of the Russell Hotel as so many blind and partially sighted people from all around the country go there for their holiday, and return year after year. Last year quite a few of them had their bookings canceled at the last minute.

Another point local organizations use this venue for celebratory meals. The swimming pool is even recommended by the local hospital and the physiotherapists for people with disabilities to improve their mobility and after care.

So please let us keep this godsend to Bognor Regis we need it here. The hotel even allow the general public in for tea and coffee or for a meal. It is a venue we could do with more of in Bognor to keep Bognor alive.

Ashley House could very easily be extended and improved without too much upheaval I have often seen inside and thought how easily this could be done.

SO PLEASE LET US KEEP THE RUSSELL HOTEL.

Yours sincerely Mrs. J. Harris.
