Subject: AW/337/19/A installation of various signage, The Ship Inn, Aldwick Street

Dear Amber Willard,

I am a resident of Aldwick. I wish to object strongly to this application. It is wrong that such garish, huge signs be allowed to degrade the appearance of a building of special character and the adjacent listed buildings next door. The appearance of the village will be further damaged by such an insensitive eyesore, which seems to be driven by commercial profit with no regard to the community. The large pictures of produce in the front window are unsightly and further damage the appearance of the area. Clearly the applicant wishes to use these to block out the view to the interior of the building so they can cram in more shelves and display units.

Please refuse this application

Robert Lock
