Dear Amber

I am writing to object to the One Stop proposal re signage at the proposed takeover of The Ship at Aldwick. The signage in my opinion is quite out of character with the location and will be an eyesore.

In fact I object to the whole idea of a One Stop in that location. There is already a local store opposite so the road doesn't need another convenience store. Two stores on that site have already failed. It is insane to open another when the community wants their public house back. The heavy traffic unloading goods will be a frequent road block.

The obstruction caused at Rose Green by the Co-op stock lorries at the corner of the traffic lights is a fine example of road blocking by lorries if you need to see one and the location of the Ship is even narrower than that.

I hope you will take note of the objections raised.

Kind regards

Collette Batho
