Tree Report

Client Contact Details: Mary & Tom Davis-Reason, 4 Lucerne Court, Aldwick, West Sussex. PO21 4XL.	Date: 22 nd November 2020
	Report Number: 690
	Surveyor: Dr Gavin Walker

T1 ASH TREE (Fraxinus excelsior):

This mature Ash tree (c.17m tall) is dominating the rear garden of this property. A 2.5-3m crown lift is recommended to enable more light to percolate through to the plants below. A 3-4m (30%) crown reduction is also suggested to help manage the crown span to avoid neighbouring properties being excessively affected. This will leave a lateral span of between 8-9m and a height of 13m. Careful tree surgery is required due to the close proximity of various fences, sheds and garden features.

Additional Notes:

- Our experienced and fully trained arborists work to high arboricultural standards and will ensure that all work will comply with BS3998:2010.
