20th November 2021

Your ref: AW/361/21/TC & PP-10333546 both dated 26th October 2021 addressed to Chichester Tree Services, West Ashling PO18 8DJ

Dear Sir,

Fell 1 No.Cupressus macrocarp (T1) at Craig Rock, 21 Craigweil Manor, Bognor Regis PO21 4DJ

We have just been informed of the application put into the Council to fell the above tree.

We would be very unhappy to see the tree felled as it is attractive and provides some screening between the Flats and the bungalows opposite.

However, we do feel it needs to be pruned professionally and made safe on two counts:

1 – the wind damaged branches need to be cut back to the trunk and treated to avoid infection, and
2 – some of the lower branches need to be removed so that large/high lorries (eg dust carts) do not break them half off with the result that the half branches will fall in our front garden (and on anyone working in it) in the next high wind.

If these two criteria could be met, then we would like to see the tree remain in situ.

Yours faithfully,

Max and Suzanne Burns
