Dear Sir or Madam,

**RE: Two storey extension and alterations
56 Aldwick Fields, Bognor Regis, West Sussex PO21 3TT
AW/143/17/HH**

I write in response to the 4th condition that formed part of the approval for the above project. The condition states:

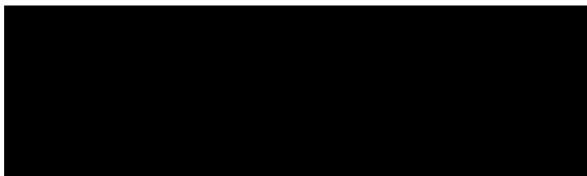

“No development above damp proof course (DPC) level shall take place unless and until a schedule of materials and finishes to be used for the proposed Marley Cedral Cladding have been submitted to and approved by the Local Planning Authority and the colour and type of cladding so approved shall be used in the first floor elevations of the building.”

I can now advise that the colour of the Cedral cladding chosen by my client for use on the upper storey of the house is Marley Eternit's C62 Violet Blue. The colour can be found on the Marley Eternit website at www.marleyeternit.co.uk/Facades/Cedral/Cedral-Lap.aspx and having clicked on the colours and samples scrolling through to arrive at the colour Violet Blue. I hope you will find this satisfactory.

My client will contact your office to make a payment of £34 for the fee.

Should you or your team require any further information, or wish to discuss the application, please contact me direct on the telephone number shown below.

Yours sincerely

Nigel Lewis
