Hi,
In response to the question asked regarding the proposed height & spread I have the following dimensions:
T1 -Oak 7 metres in height , 5.5 metres in spread.
T2- Oak 7.5 metres in height, 5 metres in spread.
T3- Beech- 4.5 metres in height, 3.5 metres in spread.
T4- Sycamore- 5 metres in height , 4.5 metres in spread.
The Oak trees (T1 & T2) we believe we're in situ in 1958, however trees T3 & T4 we're not in situ in 1958.
I hope the above clarifies the situation and allows the application to move forward.

Kind regards,
Darren Docherty
