Dear Sirs

AW/43/18/OUT – Planning Application at 261 Aldwick Road, Aldwick, PO21 3QU

I wish to **strongly** object to the above Planning Application.

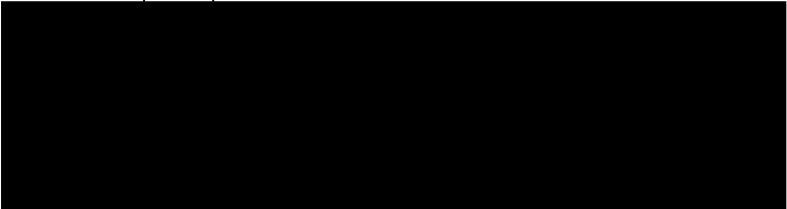

My reasons are that the impact of building 4 semi-detached houses will have a serious effect on my privacy, and my peaceful surroundings. All existing trees and shrubs will have to be removed and this is something which makes living here peaceful and scenic.

The noise that will be generated from these 4 family homes will increase immensely. The driveway to these houses will be directly the other side of our boundary fence so vehicles coming and going along this driveway will also create more noise.

Seeing 4 semi-detached houses on this development will be claustrophobic, I have enjoyed an open, scenic view and peaceful surroundings for many, many years and do not want this to change.

The disturbance of having a large house demolished and all the building works, which will take a long time to finish, is thoroughly unacceptable, the noise and the dust etc is unimaginable.

I, therefore, strongly object to this Application being granted. I have been very happy here for a very long time and do not wish things to change.

Mr D Parker
