Dear Sir or Madam

We are objecting to the proposed development which could overall change the desirability and value of this complex which with the removal of the trees and shrubs and replaced with brick buildings with possible windows overlooking the complex the privacy we have at the moment could in our opinion be a considerable loss. The overall pleasant view was one of the reasons we bought this flat and would be devastated if the peace and quiet we enjoy would be taken away with this proposed development.

We would like to add that we have both been able to recover in the last year from operations Mr Hassett from Facial Melanoma and had Sentinel node Biopsy and 4 reconstruction at Southampton Hospital with excellent treatment but needed to rest a great deal and has been able to because of the environment in which we live. Mrs Hassett for Back treatment which also was helped by the area we live, a big part in recovery.

Yours sincerely
