2 Site Address

261 Aldwick Road
 Aldwick
 PO21 3QU

3 Description of Development

Outline application with some matters reserved for the demolition of existing dwelling & erection of two pairs of semi-detached houses & associated works.

In pursuance of their powers under this Act and related Orders and Regulations the Council **PERMIT** this development to be carried out in accordance with the application and plans and subject to compliance with the following conditions and Section 106 Agreement.

- 1 The permission hereby granted is an outline permission under s92 of the Town and Country Planning Act 1990 (as amended) and an application for the approval of the Local Planning Authority to the following matters must be made not later than the expiration of 3 years beginning with the date of this permission:-

- (a) Layout;
- (b) Scale;
- (c) Appearance;
- (d) Landscaping.

Reason: To enable the Local Planning Authority to control the development in detail and to comply with Section 92 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be begun either before the expiration of 5 years from the date of this permission, or before expiration of 2 years from the date of approval of the last of the reserved matters to be approved, whichever is the later.

Reason: To enable the Local Planning Authority to control the development in detail and to comply with Section 92 of the Town and Country Planning Act 1990 (as amended).

- 3 The development hereby approved shall be carried out in accordance with the following approved plans:

Location Plan (Existing) 1060/DPA01 Rev 01;
 Proposed Block Plan 1060/DPA02 Rev 01;
 Proposed Context Plan 1060/DPA03 Rev 01;
 Proposed Site Plan 1060/DPA04 Rev 01;
 Tree Retention & Protection Plan LLD-ARB-DWG-002 Rev 00; and
 Tree Constraints Plan LLD1425-ARB-DWG-001 Rev 01.

Reason: For the avoidance of doubt and in the interests of amenity and the environment in accordance with policy D DM1 and T SP1 of the Arun Local Plan 2011-31.

- 4 The development hereby approved shall be carried out in accordance with the Arboricultural Impact Assessment Report and Method Statement (ref: LLD1425-ARB-REP-001, Rev 01 by Lizard Landscape Design Ltd.

Reasons: To comply with BS5837 and Arun Local Plan policy ENV DM4 and to ensure that retained trees are afforded due respect and appropriate levels of protection such that their ongoing health and vitality is not compromised and they can continue to enhance the landscape and amenity of the area.

5

Before the site is occupied or any machinery is introduced to the site or demolition work or construction work or alterations to existing ground levels takes place a PRE-COMMENCEMENT Site Meeting is to take place between the Arun DC Tree Officer and the Arboricultural Expert representing the site owners.

At this meeting all protective fencing will be inspected along with ground protection measures - they will be assessed to verify that they are 'Fit for Purpose' as required under British Standard 5837:2012 and have been erected and positioned exactly as shown on the Tree Retention and Protection Plan ref: LLD-ARB-DWG-002, Rev 00, (21/06/18).

A schedule of Site Monitoring/Supervision visits and Reporting Procedures prepared by an Arboricultural Expert will be required and their extent will be agreed on at the above site meeting to the satisfaction of the Arun DC Tree Officer.

If there is deemed to be a need for any Utility Service Route connections to bisect retained tree Root Protection Areas/Zones then prior to their installation a Method Statement prepared by an Arboricultural Expert must be submitted that stipulates how this can be achieved without adverse impact on tree roots. Written approval and confirmation of acceptance of this Methodology must be issued before any works are commenced out on site.

Reasons: To comply with BS5837 and with Arun Local Plan policy ENV DM4 and to ensure that retained trees are afforded due respect and appropriate levels of protection such that their ongoing health and vitality is not compromised and they can continue to enhance the landscape and amenity of the area. This is required to be a pre-commencement condition because it is necessary to ensure the protection of the protected and otherwise significant trees prior to any change to the surface of the site.

6

Development shall not commence until full details of the proposed surface water drainage scheme have been submitted to and approved in writing by the Local Planning Authority.

The design should follow the hierarchy of preference for different types of surface water drainage disposal systems as set out in Approved Document H of the Building Regulations, the recommendations of the SUDS Manual produced by CIRIA.

Winter groundwater monitoring to establish highest annual ground water levels and Percolation testing to BRE 365, or similar approved, will be required to support the design of any Infiltration drainage.

No building shall be occupied until the complete surface water drainage system serving the property has been implemented in accordance with the agreed details and the details so agreed shall be maintained in good working order in perpetuity.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies W DM2 and W DM3 of the Arun Local Plan 2011-31. It is considered necessary for this to be a pre-commencement condition to ensure that the surface water disposal scheme is agreed before construction commences.

- 7 No part of the development shall be first occupied until such time as the vehicular access serving the development has been constructed in accordance with the approved drawing.

Reason: In the interests of road safety and in accordance with policy T SP1 of the Arun Local Plan 2011-31.

- 8 Should any sewer be found during construction works then all development activities within 5m of the external edge of the sewer shall cease and they shall not recommence until full details of the proposed measures to be undertaken to protect the existing public sewer have been submitted to and approved in writing by the local planning authority (in conjunction with Southern Water) and then implemented in accordance with the agreed details.

Reason: To ensure that the proposed development does not result in any damage to the existing foul sewer in accordance with policy W SP1 and W DM1 of the Arun Local Plan 2011-2031.

- 9 No external lighting shall be installed on site until plans showing the type of light appliance, the height and position of fitting, illumination levels and light spillage have been submitted to and approved in writing by the Local Planning Authority. The scheme should seek to conform with the recommendations within BS5489:1-2013 but also minimise potential impacts to any bats using the trees, hedgerows and buildings by avoiding unnecessary artificial light spill through the use of directional light sources and shielding. The lighting approved shall be installed and shall be maintained in accordance with the approved details.

Reason: In the interests of the amenities of the area, the site biodiversity (particularly in respect of bats), the interests of minimising crime and to minimise unnecessary light spillage outside the development site in accordance with policies QE SP1, QE DM2 & ENV DM5 of the Arun Local Plan.

- 10 Where whole tree branches are to be removed and final cuts made close to the trunk or branch union they are to be made as shown in Figure 2 of BS3998:2010. Where branches are to be shortened back the final cuts are to be made at the correct angle shown in BS3998:2010 and adjacent to a live bud or lateral.

Reasons: In the interests of the trees continued health and vitality and to accord with current industry guidelines and sound arboricultural practice including policy ENV DM4 of the Arun Local Plan.

INFORMATIVE: Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure)(England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating, with the Applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

INFORMATIVE: Drainage Engineers advise that Infiltration rates for soakage structures are to be based on percolation tests undertaken in the winter period and at the location and depth of

the proposed structures. The percolation tests must be carried out in accordance with BRE 365, CIRIA R156 or a similar approved method and cater for the 1 in 10 year storm between the invert of the entry pipe to the soakaway, and the base of the structure. It must also have provision to ensure that there is capacity in the system to contain below ground level the 1 in 100 year event plus 30% on stored volumes, as an allowance for climate change. Adequate freeboard must be provided between the base of the soakaway structure and the highest recorded annual groundwater level identified in that location. Any SuDS or soakaway design must include adequate groundwater monitoring data to determine the highest winter groundwater table in support of the design. The applicant is advised to discuss the extent of groundwater monitoring with the Council's Engineers. Supplementary guidance notes are also available on request.

INFORMATIVE: The applicant is advised to obtain formal approval from the highway authority to carry out the site access works on the public highway. Additional information about the licence application process can be found at the following web page:

<https://www.westsussex.gov.uk/roads-and-travel/highway-licences/dropped-kerbsor-crossovers-for-driveways-licence/>

Online applications can be made at the link below, alternatively please call 01243 642105.

<https://www.westsussex.gov.uk/roads-and-travel/highway-licences/dropped-kerbsor-crossovers-for-driveways-licence/vehicle-crossover-dropped-kerb-constructionapplication-form/>

INFORMATIVE: This decision has been granted in conjunction with a Section 106 legal agreement relating to a financial contribution of £2,613 towards the Pagham Harbour Access Management Mitigation Measures.

INFORMATIVE: A formal application for connection to the public sewerage system is required in order to service this development, please contact Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW (Tel: 0330 303 0119) or www.southernwater.co.uk. Please read our New Connections Services Charging Arrangements documents which is available to read on our website via the following link <https://beta.southernwater.co.uk/infrastructurecharges>.

INFORMATIVE: Please note the comments of our Greenspace Officer in respect of the future landscaping scheme: "A detailed landscape scheme will need to be proposed that will maximise the biodiversity of the site, with the inclusion of mixed ornamental planting suitable for location, enhancing biodiversity and forming a variety of habitats. The landscape proposals will need to be shown in plan from detailing species choice, planting densities and size at time of planting. This will need to include mitigation planting for any proposed removed vegetation and possible additional planting to provide appropriate screening to adjacent properties."

Case Officer: Mr S Davis

Date of Decision:

3 September 2018

Neil Crowther

IT IS IMPORTANT THAT YOU READ THE NOTES ATTACHED TO THIS DOCUMENT

APPEALS TO THE SECRETARY OF STATE

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, and you want to appeal against this planning application decision, then you must do so within 28 days of the date of this notice.

If an enforcement notice is served relating to the same or substantially the same land and development as in your application and you want to appeal against this planning application decision, then you must do so within 28 days of the date of service of the enforcement notice, or within 12 weeks of the date of this notice, whichever period expires earlier.

Otherwise, if you want to appeal against this decision then you must do so within 6 months of the date of this notice.

Appeals must be using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <http://acp.planninginspectorate.gov.uk>

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

PURCHASE NOTICES

If either the local planning authority or the Secretary of State refused permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (that is, where the land is situated in a National Park, the National Park authority for the Park, or in any other case the district council in whose area the land is situated). This notice will require the Council to purchase the owner's interest in the land in accordance with the provisions of Chapter 1 of Part VI of the Town & Country Planning Act 1990.

Please note that this decision notice only relates to matters under the Planning Acts and does not give consent under any other legislation that may apply to the development. You will need to carry out your own checks to determine whether any other consents or permissions are required. For example, the Building Regulations are likely to apply to most developments, and a Highways Licence may be required from West Sussex County Council for any development within the public highway (including the placing of skips on highway land).
