Good Morning Mr White,

I am writing to let you know that Mr Castro Parker is in possession of a cladding sample that we propose to use for our extension.

I hand delivered this a few weeks ago, it is labelled with our planning code and Richard has all the information on an official form and also detailed in an email I sent previously. I can forward this information to you if this would be helpful?

Please would you be so kind as to give your comments on this sample as soon as possible. We are as you can imagine extremely keen to get started on our building project. I would very much appreciate a speedy response from you and Mr Castro Parker regarding the materials and hope that between us we can make an excellent decision for us to move swiftly forward with.

Many thanks

Annaliesa
