Dear Sirs,

FAO Nicola Moore

Thank you for your letter dated 1st March 2022 relating to the above proposed tree works.

As requested, I write to confirm that the intended works would lift the eastern crown of the tree to a height of approximately 6 metres above ground level relative to an overall tree height of c. 8 metres. This would then level off the lower crown of the tree with that on the western side.

I trust this is sufficient for your purposes but should you require anything further, please do not hesitate to contact me.

Yours faithfully,

Stuart Dean.
