AW/55/10/T - Lightly crown lift (T1) 2 Evergreen Oak Trees and prune back easterly growth , Fell (T2) 1 Evergreen Oak at Craigweil Manor Flats ,The Drive, Aldwick.

Thank you for your recent memo, the site of which I visited recently and confirm that the tree marked T2 Evergreen Oak on the plane is dead and should be removed . Two new trees (Maritime Pine) have been planted in the position to take the place of the dead one.

The trees marked (T1) Evergreen Oaks appear to be two trunks coming from what could be a common source below ground, and the work of pruning is to restore the balance of the tree as it is in a very exposed position.

I have no objection to the proposed work it being for the future good practice in keeping the tree stock in good health.

I hope this will be of help to you,

Mark Everson.
Arboricultural Officer.
