Ref: 1 The Drive, Aldwick PO21 4EE

T1 GOAT WILLOW

This tree is growing in a hedge line and has been regularly pruned to keep it to dimensions suitable for the confined location. Proposed works to reduce to the previous cuts at 6m approx.

T2 EUCALYPTUS

The tree is leaning markedly and bearing on the garden fence. The client is concerned about failure and the consequent damage to property. Proposed works are to remove the large low bough at 5m approx. and reduce height by 5m. These works will lessen risk of failure and improve overall balance.
