Hi Amber

Thank you for your response, Im happy to go forward with the alternative method that's been proposed, If you could keep me updated on the status of the application that would be highly appreciated.

Regards

Jake

Dear Mr Davies,

I have just received Arboricultural comments regarding your application AW/60/18/T at 1 Craigweil Manor, Aldwick.

Currently, your application is set to be refused as it has been considered the works to the Holm Oak would result in an excessive reduction of the trees landscape impact.

However if you are willing to agree to his advice then I can amend the description and write it up to recommend approval. The revised description would read.

‘Crown lift No2. Grey Polars to achieve a 1-metre clearance between the lower canopy and the adjacent wall whilst removing any crossing and rubbing branches located throughout the canopy.’

Please let me know if you agree.

Thank-you
