Subject: Fw: Request for further information AW/67/21/T

As requested I would like to clarify the details of my application.

1. There is only one oak tree causing concern. Because it is growing very close to two other oak trees it appears to be interfering with their growth. I would like permission to remove the tree causing concern. If this is not possible I would like permission to remove the branches of it which overhang my garden. I have attached a revised Sketch plan as requested. The tree I am seeking permission to remove/reduce the branches of is marked as T1 on the revised plan. This tree is also shown in the photograph labelled 'Branches overhanging broken fence 35 Fernhurst Gdns'. It is the one which appears to be leaning on the broken fence.

2. I have attached copies of the emails referred to in my application.

I hope this clarifies my application.

Regards

Valerie Owens
