Trees reviewed on the Craigweil Estate, on my visit - 4th Feb

Dear Bob

Following my visit to look at the trees on the Craigweil, I provide the following recommendations.

T1, Crown lift the Ash tree outside No. 52 Kingsway to 2.5 meter above ground. Tip back lateral spread on the trees south side by 1.5 meters.

T2, Prune two to three of the lower south easterly limbs off the Lime tree outside No. 24 Kingsway. This will remove the branches interfering with the neighbouring Prunus tree.

T3, Remove the suckers on the main trunk of the White Poplar tree outside No. 23 Kingsway. Remove the three lowest limbs on this tree. This will crown lift the tree to approximately 5.5 Meters above ground level.

~~T4, there is a dead Mountain Ash tree outside No 45 The Drive. This tree needs removing~~

Please don't hesitate to get in touch if you have any questions.

Yours sincerely

John Bentley ND Arb
