Dear Mr Ostler,

We are required to upload anything submitted by an applicant in support of their proposal (or indeed anything submitted by third parties in connection with an application). It is then the role of the planning officer to determine whether the information submitted is material or not.

In this case, the applicant submitted these to evidence their passion for art-deco. I shall make reference to the photos in the report update to the Development Control Committee and advise members whether they are material or not.

Kind Regards

Dear Mr. Davis,Ricky

Can you please explain to me the material planning consideration which inspired you to publish, in colour, today, five indoor photographs of Queenslawn, please? Who is that to influence or are ADC now selling Agents? And in this open and transparent and in the interests of the Development Control Committee or a biased attempt to influence someone somewhere? We think it reflects poor judgment on your part – and you say you pass these things for scanning – and bias! WHY?

Regards,

Richard Ostler, Chairman, CHECAA
