Subject: REVISED TREE PLAN - AW/71/18/HH 36 Kingsway - a mockery of Justice!

Importance: High

Dear Mr. Crowther,

We now note from today's website display that 'Simon' was, sadly, not able to look at 'Nigel's' email of the 30th until the 31st. I now realise that the 'reply' you sent me yesterday related to July 2016 – TWO YEARS AGO!

And it refers to a REVISED TREE PLAN which the public have not yet been allowed to see – a revised plan, on a major issue upon which the Tree Officer must be consulted - produced at the 11th hour. **This is a mockery of Justice when the application was submitted on the 7 February 2018 – FIVE MONTHS AGO!**

Do you seriously believe that allowing this sort of stroke to be pulled on a Friday before the DCC on Wednesday is fair or reasonable, for CHECAA considers it to be outrageous. **Not a Court in this land would allow such late submission of such an important document. We have prepared reports THREE times on the trees – this will be the FOURTH and that simply cannot be right!**

Can you now publish the un-redacted of the letter published today, please.

This letter is for publication on the website.

Regards,

Richard Ostler, Chairman, CHECAA.
