Dear Mr Harrison,

Town & Country Planning Act 1990 (as amended)
Town & Country Planning (Tree Preservation) (England) Regulations 2012

Application for Works to Trees(s) subject to a Tree Preservation Order(TPO)

Development: We wish to undertake re-pollarding works to x2 Horse Chestnut (Aesculus hippocastanum) T1 and T2 and x1 Beech (Fagus sylvatica) trees T3 on the sketch plan.

The proposed works involve reducing the regrowth by approximately up to 1.5 meters, returning the trees back to their previous, well-established pollard points. The finished height of the trees will be maintained at approximately 4 meters.

These trees have historically been managed under a pollarding regime, and the proposed works form part of an ongoing cyclical maintenance program.

Undertaking the works at this stage ensures that regrowth remains controlled and that pollard heads do not become over-extended, which could otherwise increase the risk of failure and lead to long-term physiological stress.

The works will maintain the trees in a safe and sustainable condition while preserving their amenity value within the local environment.

All works will be carried out in full accordance with BS3998:2010 (Tree Work â?? Recommendations), ensuring that pruning cuts are made to appropriate previous pollard points, maintaining the integrity of the pollard heads and promoting good arboricultural practice.
