4 In pursuance of their powers under this Act and these Regulations the Council **GRANT** consent for the operations to be carried out in accordance with the application and plan and subject to the conditions specified.

The Council certify that they are satisfied that the conditions specified are in the interests of good forestry or in the case of trees other than those comprised in woodlands, that the trees have an outstanding or special amenity value.

1 Part a) Where whole branches are to be removed and final cuts made close to the trunk or branch union they are to be made as shown in Figure 2 of BS3998:2010.

Part b) Where branches are to be shortened back the final cuts are to be made at the correct angle shown in BS3998:2010 and adjacent to a live bud or lateral.

Part c) Where crown reduction work has occurred previously, the removal of subsequent growth (shoots and branches) and position of final cuts must ensure retention of all established knuckles.

Reasons: In the interests of the trees' continued health and vitality and to accord with current industry guidelines and sound arboricultural practice.

INFORMATIVE: As per section 17, paragraph 4 (a) and (b) of the Town and Country Planning (Tree

Preservation) (England) Regulations 2012, this consent is only valid for 2 years and may only be carried once.

INFORMATIVE: The applicant should note that under Part 1 of the Wildlife and Countryside Act 1981 (as amended), with only a few exceptions, it is an offence for any person to intentionally take, damage or destroy the nest of any wild birds while the nest is in use or being built. Birds nest between March and September and therefore removal of dense bushes, ivy or trees or parts of trees etc. during this period could lead to an offence under the act.

INFORMATIVE: This notice does not give authority to destroy or damage a bat roost or disturb a bat. Bat species are protected under Section 39 of the 1994 Conservation (Natural Habitats etc) Regulations (as amended), the 1981 Wildlife and Countryside Act (as amended) and the 2000 Countryside and Rights of Way Act. It is illegal to damage or destroy any bat roost, whether occupied or not, or disturb or harm a bat. If you are aware that bats roost in a tree(s) for which work is planned, you should take further advice from Natural England (via the Bat Conservation Trust on 0345 1300228) or an ecological consultant before you start. If bats are discovered during the work, you must stop immediately and contact Natural England before continuing.

INFORMATIVE: Hard pruning creates numerous and/or large wounds, incurring a physiological stress which may affect long-term health and vitality. The optimum time for pruning horse chestnut and beech trees is late spring to summer (May to August).
