Hi Amber

I undertook my site inspection at both locations on April 17th, with the applicant Mr Burrows in attendance.

All tree work proposed is well intentioned, reasonable and would not result in a diminution of character to the surrounding area.

The applicant is well-versed in the process of applying for tree work in Conservation Area and advised me that a contractor was due to attend the following day and undertake the work. I informed the applicant that I would not be recommending the making of an Order for any tree in response to the above proposals and that as the 6week notice period had expired they could proceed on the usual terms.

Kind regards,

Mark
