Report on the Trees looked at in my visit 11th December 2025

Dear Ed

Thank you for getting me over to take a look at the various trees around the estate.

I can confirm the following recommendations to trees discussed with you.

G6 - There is one dead Elm to fell on the belt of trees north of No 1 Grange Court. I also recommend the severing of the Ivy on one Ash tree, one large Lime tree and one large Sycamore tree. This will be done at approximately 4 meters so some Ivy is kept for the wildlife.

T1 & T2 – Dead wood removal on one London Plane and one Ash. These trees are either side the path which connects Lucerne Court and Garden Ct. The two trees are directly north of No 15 Garden Ct. The large Ash tree to the west of these two trees was dead wooded on our last visit and does not need doing this time round.

T3 – Tip back the southerly growth on one mature Oak tree north of No. 10 Garden Ct. This will create more of a gap between the tree's canopy and the property. Final southerly crown spread ending up at approximately 8 meters

T4 – remove major dead wood over dark lane from the large Lime tree. This tree is close to the northern end of the pedestrianised Dark lane.

T5 – Fell one of the largest Sycamore trees closest to the Wall on the pedestrianised section of Dark lane (location What3Words – Spike.beam.rated)

If I can be of further help please do get in touch.

Yours sincerely, [REDACTED]

John Bentley (NDarb)
