Subject: Planning Application AW/85/18/HH - 54 Kingsway, Craigweil, Aldwick

Dear Cllr Bower

Although I booked a slot to speak today as a supporter of Planning Application AW/85/18/HH - 54 Kingsway, Craigweil, Aldwick - I was at your meeting under false pretences because I am NOT a supporter of it! If you remember any of what I said, I made no comment whatsoever in support of the application. I was complimentary of Cllr Terry Mullings of Aldwick Parish Council, but apart from that all I did was request a delay in the determination of this application and a site visit before the next meeting. You quickly dismissed my request and your Committee approved the application.

If you visited the site and looked at the work proposed, and today approved, in the cold light of day, you would see that this application is in fact a rubbish proposal. As a "supporter" I could not say that at your meeting.

Congratulations! You and your committee frequently approves any old rubbish because you have to dispose of it in an appropriate way. There is an Amenity Tip in Shripney Road!

Do not worry, you will never see or hear me supporting any planning application in future as I never have done so in the past.

I think your system needs a reboot. You are a tease and so are your officers!

Kind Regards

Nick Cotton
