Hello Paul,

The cladding will be vertical, either wood cladding or high quality eco-recycled wood composite. Being a natural material, the colour will be a light brown hue.

The windows will be white.

The roofing materials will match the existing roof tiles and will be standard tiles.

I haven't decided on the colour of my new front door, but this will likely be a solid wood door in a shade that complements the cladding.

I don't understand why this information is being asked for now, and why it's required at such short notice, as it was discussed and agreed on during our meeting with Martyn White in the summer.

This choice of materials was then reflected in our revised application, and was detailed in our substitute plans.

We sent this information through to you, Andrew Wood and Martyn White in our email of 28 June 2018 subject matter 'Revised Application AW/85/18/HH.

We have attached it once again.

Please let me know if you require any further details from me to answer Mr Castro-Parker's questions.

Regards,

Annaliesa
