

ADC PARKS & GREENSPACE ARBORICULTURE CONSULTATION

FROM: Ian Brewster TO: Janice Chapman

PLANNING APPLICATION: AW/87/13/T

ADDRESS: 11 Hechle Wood Aldwick PO21 3TL

INSPECTION DATE: 16th May 2013

RECOMMENDATION: Remove small internal branches to 1No. Sycamore and dead wood and epicormic growth not to exceed 15% thinning. Works to be completed when tree in full leaf. Shorten lower branch (bowing) southern side by 2 metres to appropriate growing point and shorten lower branch east side by 1 metre to appropriate growing point to 1No. Corsican Pine.

Objection ☐ No Objection ☒ Suggested Conditions ☐

Comment ☒ Recommendation ☒ Abate a Nuisance ☐

Tree Replacement ☐ Dead/Dangerous ☐ CA & Amenity Value ☐

Comments:

I inspected both trees from the highway and would not object to the tree work as the proposal is regarded as minimal and would not adversely affect their overall appearance.

Recommendation

To prevent 'Lion Tailing' the 15% crown thin of the Sycamore should be carried out systematically throughout the tree and not solely to remove epicormic growth from the inner crown core.

Ian Brewster
Arboriculturist
