Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

TPO 2/58 - Area 7

7. Identification Of Tree(s) And Description Of Works continued ...

wood point - max 3 metres. The trunk is 3.5 metres from my house + the branches overhanging my roof.
The oak has one branch 3 metres into my property and another one which has so shaded my front bit of garden as to have made the plants die back.
I have had solar panels put up too so am keen to have any dead branches etc removed in case the panels get damaged
It is a crown reduction in both cases

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
