Method and Access Statement for Replacement Windows

Windows will be constructed like for like to the original existing windows and traditional materials will be used.

- Sash window replacements to be made like for like
- Original mouldings will be copied
- Timber used will be Accoya (A treated hardwood timber that resists rot and the elements and has a natural appearance)
- Windows painted white
- Glazed with 4mm single glazing
- Glass installed with putty and copper nails
- Window hardware to match existing
- All internal timbers to be re-instated & repaired if needed
- Sashes fitted with traditional sash weights
- Weights installed with waxed sash cord
- Brass sash pullies used

Attached below are drawings of the windows and window profiles.

Kind regards

Jon Baker
