With regard to the development of the former Chandlers site although I support the provision of the retirement homes I do not agree to the large convenience store (over 375 sq metres). There are only twelve parking spaces provided for the store and not enough parking for the retirement homes. This will cause even more traffic congestion and parking issues in the village. Also, the new sub station and heat pump for the development will be too close to the boundary of some residential properties at the bottom of Cumberland Crescent creating an eyesore and noise which will affect existing residents and impact on property values.
