Technical Support Unit on extn. 37711

21st August 2018

Dear Mr Paul Tulley

Development:

T1. Magnolia

To reduce a dozen overhanging branches by 30% to allow more dappled light into garden of Mulberry House to the West.

Not to reduce overall radial spread to the West, but to thin branch density by removing a 1/3 of secondary branches.

This would also distribute a more even balance of weight to tree and its leaning branches to the West, given the extent of previous work to the East side.

Pruning wounds not to exceed 18m.

Maximum branch length removed 2m.

Location:

Flint House Mulberry Hollow Angmering
