Littlehampton.

1. Merryfield Crescent,
Angmering
Littlehampton
BN16 4DA.

22nd Sept. 2018.

Dear Sir,

Re: - Planning Application No. A/114/18/PL

The site is over developed, with all the back up
staff required the parking plans are ridiculously small.

If I drive up the road and turn right we already
have our hospice in Timore lane, six and a half
minutes away. Hospices are usually self financing.
Two hospices will be fighting for the same funds
from the same local communities, that is not a
good planning idea.

In Dappes lane and Merryfield Crescent
front garden lawns are being parked on and
pavements overparked. These two roads
are one of the two main entrances and exits
to this part of Angmering, they are the local
'rat runs' for the schools west of us.

Buses are frequently stuck at the junction
of these two roads, the roads are not wide
enough, Dappes is a lane and Merryfield
is just a non standard width that was just
constructed later to Dappes have just to

connect the estate to the lane. An excess of vehicles, from the above application, parking on these two roads where there already is congestion is not going to add to anyone's quality of life.

At night time there are sure to be night time food etc. deliveries. There will be noise and light pollution especially as the will be extended all night visiting times.

An attempt is being made to change the area from an acceptable green horticultural / agricultural area into a semi rough industrial spread.

A developer just wants to make a lot of money and then run!

Yours faithfully
