Subject: RE: A/114/18/PL - Broadlees, Dappers Lane, Angmering,

Hello Anita.

There are numerous housing builds in Angmering, and as part of the strategic house build feedback the CCG shared that the preferred option is to increase capacity. This is likely at the main Angmering medical centre site, but depending upon all the house building that occur (ie timing), we as health may utilise other sites to facilitate on the day demand etc.

Thus, the March refresh of housebuilds to date and current applications will allow me to pick up more detail (ie at our year end).

For now, the s.106 response shares that there is a need for more capacity (just looking at the strategic house build volumes) and there will be a local Angmering increase (the preferred option) but there will also be shared capacity in the area too.

If you have any figures on actual house sales / occupancy, that will be so helpful with regard to planning for this. I do plan to catch up with Ros Bentley soon (she sends s.106 updates with regard to builds too).

Does that help?

Simon

Dear Simon,

I am hoping to take the above application to a Committee meeting soon and need to clarify specifically what project/ building/facilities the monies requested in your consultation response would fund. You have referred to the Coppice GP surgery, Angmering, but can you let me have more detail?

Regards

Anita Gardner
