Thank you for your letter of 21/08/2014.

Southern Water is satisfied that the drainage conditions can be discharged. However, as part of the planning approval could an informative be included stating the following:- The proposed onsite drainage and wastewater pumping station should comply with sewers for adoption standards or the connection application could be refused.

The Council's Building Control officers/technical staff and the Environment Agency should be consulted regarding the discharge condition for surface water disposal.
