The following reply to a consultation has be received via Ocella's E Consultation Hub on 10th December 2012:

No EH objections. To minimise light pollution and impact on local amenity it is recommended that the lighting installation meets the obtrusive light limitations for environmental zone E2 (village or relatively dark outer suburban locations) contained in Table 2 of the Institution of Lighting Professionals Guidance Notes for the Reduction of Obtrusive Light GN01:2011.
