Dear John,

Thank you for your e-mail. I must apologise for not replying to you sooner, but I have been in-undated with queries.

I will be honest and state that I still have reservations regarding the loss of the valley. However, you are able to explain the reasons for the proposal and your belief in the lack of impact as part of the application. The use of quality materials may lessen the impact of the change.

The signage does seem excessive. However, the impact of the front sign could be reduced if the existing sign is to be removed.

I am on annual leave until the 17 august, but am more than willing to speak with you on the telephone on my return if that would help?

Kind Regards

Martyn
