Re: Planning Application A/44/13/L

Dear Sir/Madam,

I am writing with reference to the above planning application on behalf of a client of ours; Mr John Hinds.

We are soon to be erecting a new oak framed garden room on the site which recently gained planning permission from Arun District Council (letter dated 4th July 2013).

I enclose with this letter material samples that will discharge condition 2 applied to the granting of planning permission. Submitted are samples for reclaimed hand-made roof tiles and softwood weatherboarding to be applied to the external walls.

I also enclose drawings detailing the proposed doors and windows to allow you to discharge condition 3.

I also enclose a cheque for £28 which I have been advised after a phone-call to the council is the correct amount to allow you to discharge both conditions.

We would appreciate written confirmation as soon as possible from Arun District Council that these materials are suitable and the council have no objections to their use.

Yours Sincerely,

Toine Hodgkiss
Sussex Oak Structures Ltd
